SPA ACQUA AT HOTEL YOUNTVILLE (CA)

What's New

WRITTEN BY NANCI MCARDLE

▲ RESURGENT STEM CELL FIRMING ACTIVATOR

Resurgent Stem Cell Firming Activator from **Dermalect Cosmeceuticals** is a finishing product that promotes stem cell protection and the resurgence of younger looking skin tissue. Containing alpine rose stem cell technology, the spray also helps prevent free radical damage. (888)

▶ OXY REVITAL PL CREAM

Ideal for use after treatments such as laser, microdermabrasion, and acid peels, **Sesha Skin Therapy's** Oxy Revital PL Cream soothes and calms the skin and has an anti-inflammatory effect. It also contains alteromonas ferment extract, which reduces irritation and activates cell repair. (888) 977-3742; www.seshaskin.com

▲ BRIGHTENING SYSTEM

Lumixyl's four-part Brightening System is designed to help clients with sun damage or hyperpigmentation. Containing no hydroquinone, the products include an antioxidant cleanser, a brightening cream, a glycolic exfoliating lotion, and a moisturizing sunscreen. All products work together to help reduce the look of skin damage and even out skintone. (888)

▼ LUMIÈRE

Lumière from **Neocutis** helps erase the signs of fatigue and aging that target the delicate under eye area. The cream contains caffeine to alleviate puffiness, hyaluronic acid to help firm and hydrate the skin, bisabolol and glycyrrhetic acid to calm and soothe the skin, and sodium hyaluronate to help the skin retain moisture. It also helps reduce the appearance of fine lines. (866) NEOCUTI; www.neocutis.com

◀ SMOOTH INDULGENCE MINERAL FIRMING POWDER

Dermablend's Smooth Indulgence Mineral Firming Powder evens out skintone and minimizes redness while providing natural translucent coverage. The lightweight powder also reduces the appearance of wrinkles, fine lines, and pores while absorbing excess oil. (800) 662-8011; www.dermablend.com
