Beauty Scoop

Summer's sizzlin' hot with these fab finds.

By Karina Timmel

Get Buff

Tackle all your summer beauty to-dos—bikini wax (check), brow tint (check), nails (check)—in one spot at oh-so-fab Wax in Inman Park. Efficiency aside, this studio just added to its repertoire **Buff – A Mod Nail Bar**. Snooze in one of the calming salon's custom-made zero-gravity chairs while getting a pedi, or take a seat at the quartz-topped bar for some work on those cuticles. No nasty salon smells here—Buff boasts chem-free polishes, like fabu Butter London, RGB, Nars and Deborah Lippmann. *Manicures \$25, pedicures \$50, gel polish \$40; @waxatlanta*

WAX OFF

Men: This summer, avoid using wax-based hair products that can seep from the hair follicle onto the scalp as you sweat. Ignore this advice and behold—blocked pores and nasty head zits. Instead, use water-based formulas.

Information supplied by Dr. Jonathan Ballon, board-certified hair restoration physician and neurosurgeon at Hair Club Medical Group Atlanta.

PUTTIN' ON THE SPRITZ

Keep strand damage at bay. Bag **KeratinPerfect's PerfectRenew replenishing spray** to protect your lovely locks from heat styling and harmful UV rays. Spritz the 25-percent keratin protein solution onto towel-dried or dry tresses to tame frizz, add shine and guard against color fade. Comb through, and say hello, gorgeous! \$34, *Sephora, @keratinperfect*

WELL-WISHER

Hit the gym? You'd rather have a root canal, thanks. Clearly you've not taken the whole-wellness approach en route to Buckhead, where the contemporary, white-walled, blue-accented **BalanceDiet and thinspa** provides members with a holistic health transformation (spa therapies, nutrition, life counseling, the works). Launched by a husband-and-wife team—both former architects for Starwood Hotel Group (hence the fab space), and he, a former body builder—the unique offering involves a super-low \$17 monthly membership fee. After that, come and go as you please and, each month, consult with a nutritionist, fitness trainer and spa therapist to meet your goals. If your objective is to spa it up, treatments here incorporate all-natural Ytsara Thai Spa Therapy products, and everyone loves the infrared sauna—chillax inside this high-tech hottie for an hour without feeling obscene sauna heat. *balancedietbuckhead.com*

Glow and Behold

You're not a fan of Botox—we get it. Tell Father Time to take a hike with **BMR Beauty's** recently launched, FDA-cleared **Facial Toner**. Using electrical pulses to stimulate collagen and elastin, it keeps skin tight and youthful. And the “no pain, no gain” policy need not apply. This skin whiz is all gentle taps, not painful zaps. See results after a 12-week period of using it five days a week in 20-minute spurts, according to your new best friend, BMR. \$395, *Neiman Marcus, @bmrbeauty*

6/11/12

@thedrybar anytime! x “@becwves Mornings r SO much better when they start off @thedrybar Flatiron. Thanks for the killer blowout, guys! #cosmotai”

—Beauty maven Alli Webb is the founder of Drybar in Atlanta and 13 other locations

CLOSE SHAVE

Cut through stubble with across-the-pond cult fave **Dreadnought Luxury shaving cream**, a smooth operator that moisturizes, but won't clog pores or razors. An almond-sized amount and a few drops of H2O are all that's needed to achieve a thick, creamy lather. This paraben-free, eco-friendly packaged product also reduces heavy beard growth. \$16, *American Haircuts, @dreadnoughtusa*
