

Review: Detoxifying Oxygen Facial Commission

January 4, 2009

THE REVIEW

As I am nearing my 40th birthday (Do you hear the sigh in my voice as I say that?), I realize that caring for my skin is even more important now than ever before. I have always used a cleanser on my face- both in the morning and at night. Even so, I have been noticing that the cleansers I've used are either leaving my skin feeling dry or not clean enough. I worry that I am damaging my skin even more by using products that aren't healthy for my face. So, when Nicole from Mom Fuse asked me if I would review Dermelect Cosmeceuticals Detoxifying Oxygen Facial Commission, I was intrigued. After reading a bit about it on the Dermelect Cosmeceuticals website, I agreed to give it a try.

Description of Detoxifying Oxygen Facial Commission from the Dermelect Cosmeceuticals website:

Due to the natural aging process as well as environmental factors and bad habits, oxygen levels in our facial skin decline taking with it energy utilized to keep the skin taut and smooth. With just a pump you will release oxygen molecules and purifiers to instantly detoxify and invigorate your tired skin to a rejuvenated "fresh" face. Re-up the oxygen levels to your skin to revamp, revitalize and hydrate worn thin skin. Commissioned to cleanse, re-energize and de-stress your skin, you can choose to use it as a cleanser to clean out your pores, dissolve make-up and other impurities or as deep cleansing, skin-soothing masque to furnish you with a fresher, younger-looking face. Either way, this fabulous, complexion brightening formula can provide your skin with an instant detoxifying, oxygen facial. Recommended for all skin types- also effective for acne.

I have been using **Deoxifying Oxygen Facial Commission** for a week now, and what I have noticed is that it rejuvenates my face without harsh scrubbing, leaving me feeling luxuriously fresh. I have used this product as both a cleanser and as a facial mask, and I love the results from both. When used as a mask, I can feel the foam little bubbles of cleanser tickling my skin as it works its invigorating magic. Only a pea-size pump of the rich foam transforms my face from blah to glowing. No more shiny T-zone for me!

Though just a tad pricey at \$48 for 3.3 ounces, I have to say that knowing my skin is healthy and glowing- something it hasn't been in too many years to count- makes **Detoxifying Oxygen Facial Commission** priceless!

Purchase **Detoxifying Oxygen Facial Commission** at **Dermelect Cosmeceuticals** and see for yourself how amazing this product is!

Thank you, Mom Fuse and Dermelect Cosmeceuticals for allowing me to review this product!
