Canning jar lunchbox adapter •
Canning jars are designed to store foods safely. Now, you can turn your canning jars into a lunchbox.

Cuppow has designed BNTO (pronounced ben-toh). It's a $\frac{3}{4}$ cup plastic container that fits into the top of a wide-mouth canning jar. The cup is designed to hold dipping sauces, peanut butter, salad dressings and more.

To use, fill a wide-mouth canning jar with your favorite snacking foods. Then fill the plastic cup with a dip, sauce or peanut butter and place the cup on top of the food. Finally, screw on the canning jar seal and you have an instant reusable lunch box.

To buy • \$9.95 at cuppow.com/collections.
