BEAUTY NOTE

► Get that naturally gorgeous glow on your wedding day with a delicate palette of pale pinks and soft neutrals. Let your true beauty blossom with (1) Clinique Fresh Bloom Allover Blush in Peony. Lightly dust blush on the apples of your cheeks to subtly define cheekbones and add a healthy radiance to your complexion. To create that 'I-can't believe she's wearing-make-up' effect that we all

strive to achieve, try (2) M-A-C Cosmetics Eye Shadow in Texture. Sweep the shadow along the crease of the lid for a barely-there effect that will brighten up the eyes. For irresistibly kissable lips, finish off with a swipe of (3) NARS Lip Gloss in Ophelia. Apply this shiny lip color with just a hint of pigment to create a glossy, pastel pout. With these simple steps, you'll be sure to shine on the big day.
