GETTING ON-TREND FOR FALL DOESN'T HAVE TO REQUIRE A LOT OF EFFORT THESE TINY TWEAKS YIELD PRETTY BIG RESULTS!

SWITCH TO A LOW SIDE PART

"Changing your part is an easy way to revamp your style without taking the plunge and getting a dramatic cut," says Nick Penna Jr., a celeb hairstylist at SalonCapri in Boston. This season, rather than a middle part, go off center like **Kate Hudson** with a low side part, a sexy look that makes hair appear fuller, says Nick. Use the arch of your eyebrow as a guide for perfect part placement. Smooth any flyaway hairs with pomade.

GO FOR SLEEKER STRANDS

Actress **Christina Hendricks** recently ditched her usual voluminous waves for this sleek do—a big trend for fall, says Matthew Fugate, a celeb hairstylist at Sally Hershberger Downtown in NYC. "It's polished and sophisticated." To get the look, start with a hair oil as a pre-shampoo treatment (leave it in for 10 minutes before washing out). It imparts softness and shine, but won't leave hair greasy.

WEAR A BOLD RED LIP

If you're only going to make one change to your makeup routine this season, try **Lauren Conrad's** easy lip switch: Swipe on a creamy, saturated, tomato-red lipstick—the must-have red shade for fall, says celebrity makeup artist Nick Barose. "An orange-y red is less formal and more youthful than a blue-based red," says Nick.
