These new hair & beauty products will help you look your best from head to toe.

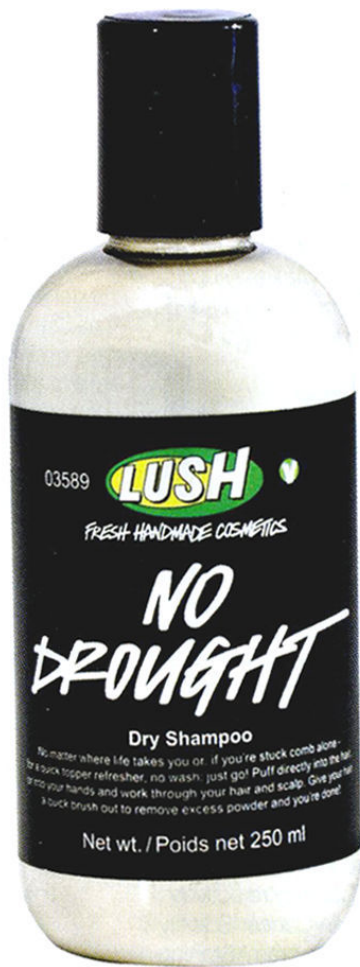

# Beauty Booty

Thirsty curls? **Ouidad's Moisture Lock Leave In Conditioner** acts as a daily moisturizer for dull strands—with ingredients like arnica, prickly pear cactus, green tea and Pro Vitamin B5, the formula hydrates, nixes frizz, restores natural texture and boosts your hair's overall health. It also doubles as a detangling pre-styler; \$22, [ouidad.com](http://ouidad.com) and Sephora stores.

Get your shine on! **Bella Il Fiore's new Shine On Lip Gloss** will give you that sexy, glossy-wet pucker while also adding the perfect touch of color and shimmer. And thanks to the tube's slanted tip, it goes on smoothly and evenly every time. Available in 6 lustrous shades, including Marie Antoinette, a pretty peach; \$11, [bellabeauty.net](http://bellabeauty.net).

Washing your hair daily is a no-no, so keep your second-day tresses looking and smelling fresh with **Lush No Drought Dry Shampoo**. To absorb excess grease, work this citrus-scented powder through your strands with a brush—no one will know you skipped a shampoo!; \$12.95, [lush.com](http://lush.com).

When regular lotion isn't enough to combat your extra-dry, bumpy skin, turn to **CeraVe's SA Renewing Lotion**. With Multivesicular Emulsion technology, the lotion not only exfoliates, smooths, hydrates and softens rough patches, it also restores and repairs the skin barrier. Powerful key ingredients include ceramides, salicylic acid, ammonium lactate and Vitamin D; \$14.99, mass retailers.

The uber-popular **Cover-Girl LashBlast Mascara** just got even better! With its new 24 Hour formula, a few quick strokes will give you dramatic high-volume lashes that last all day. All 5 shades are water-resistant, hypoallergenic, suitable for sensitive eyes and easy to wipe off with makeup remover. Plus, the brush is 25% bigger, so you can count on a smooth application with no flakes or clumps; \$8.95, mass retailers.

Even in the summer humidity, keep your style frizz-free and gorgeous with **Tousle Me Softly Spray Gel** from **Herbal Essences**. When spritzed directly onto wet or dry hair, this lightweight product will give you soft, touchable texture and strong hold without stickiness. Plus, the violet scent is so refreshing; SRP \$3.99, mass retailers.

If you envy the Kardashians' shiny, mile-long locks, you can make them your own with **Not Your Mother's Way To Grow Long & Strong Shampoo & Conditioner**. The anti-breakage formula is bursting with essential vitamins, herbs and bioactive extracts that work to strengthen hair and help it grow longer, faster. It's great for all hair types—including chemically-treated; \$6 each, Walmart, Ulta and ulta.com.

**Dermelect Cosmeceuticals' Rejuvenail Fortifying Nail & Cuticle Treatment** is a must-add to your at-home manicure regimen. The cream contains protein peptide ProSina, Vitamin E, green tea and shea butter, all of which work together to reverse signs of aging, strengthen nails and lock in moisture at your cuticles. It's also free of parabens, DBP, formaldehyde and toluene; \$18, dermelect.com.

**China Glaze** has debuted a *Hunger Games*-inspired **Capitol Collection** of polishes, with colors that reflect the movie's distinct setting and bold costumes. Shades range from Riveting, a shimmering bright orange (shown), to Foie Gras, a matte dark taupe. With 12 amazing shades, the odds of finding one you love are definitely in your favor!; \$7 each, salons and professional beauty supply stores.
