# WITH THIS

Introducing the new ring bearers...and picture-perfect ring sets (his, yours and yours)

PRODUCED BY MARGARET WATTERS AND HEATHER STEPHENS

## quick tip!

Make it sparkle. Gently clean your bling with a bowl of warm water, drop of dish soap and a soft brush every couple months.

Order your wedding bands 3-5 months before the big day. The minute they arrive, try them on for size. If the bands aren't fitting perfectly, your jeweler will still have plenty of time to adjust.

MATT LAUZON  
CEO and Founder  
gemvara.com

The last thing you want to think about on your wedding day is where your rings are! These sweet ceramic bowls with inlaid messages go all the way down the aisle in style. The ribbon at top guarantees the bands stay put, whether you place them in the hands of your sage officiant or 10-year-old nephew. Post-ceremony, frame the bowl as a memento, or keep it on your bedside table for taking off the day's jewels. You'll never forget where you put your rings!
