Enjoy Chocolate Without the Calories!

SATURDAY, MARCH 13, 2010

filed under: [food](#)

Can you imagine getting your chocolate high without the resulting love handles? Believe it! Le Whif -- the world's first inhalable chocolate food product -- is now on the market. Get a whiff of this

We discovered Le Whif today on [Luxist](#), where they interviewed the Harvard professor and inventor of the revolutionary new product. Apparently, people around the world have been whiffing for the past year -- and not just chocolate, but coffee, too!

So, how does it work? With a quick puff of the the lipstick-like device, chocolate and coffee lovers can enjoy the taste of their favorite vice -- without virtually any of the calories.

According to [Luxist](#), Le Whif is available from select retailers (including Dylan's Candy Bar in New York City and Cardullo's in Boston), as well as online at [LeWhif.com](#). Prices start at \$2.50.

So what do you think? Will a quick whiff satisfy the chocoholic in you? What's next -- whiffable turkey dinners?!
