NARRAGANSETT LIGHT

(Rhode Island, Est. Calories: 114, ABV: 3.8%)

Brewed with six row malt, seedless hops, lager strain, and the purest water around, this great tasting light craft beer is popular in New England, where it is simply known as 'Gansett Light. "It won a 2010 World Beer Championship, and a silver medal in the 2011 World Beer Championship," says Nevins. "Narragansett Brewing Company actually produced one of the first light beers in the U.S. back in the 60s."
