derma e® Natural Bodycare

derma e®'s premium DMAE – Alpha Lipoic Acid – C-Ester Cleanser, Toner, Crème, and Serum feature DMAE a remarkable skin firming ingredient along with alpha lipoic acid, also known as the “The Universal Antioxidant,” to help protect skin cells from environmental damage and C-Ester to help support healthy collagen. derma e® blends these powerful ingredients with beneficial antioxidants, vitamins, and botanicals to visibly improve skin tone and elasticity for a vibrant, younger-looking complexion. 800-521-3342 or www.dermae.com

dermalogica®

A myriad of factors may contribute to persistent skin redness, ranging from sensitized reactions to environmental irritants to genetically acquired rosacea. With these multiple conditions in mind, dermalogica® introduces a new addition to the UltraCalming system – reformulated Redness Relief SPF 20. Redness Relief SPF 20 relieves both short-term and long-term redness, immediately attending to visible symptoms while addressing deeper causes. 310-900-4000, www.dermalogica.com, or CRR# 106

Dermelect® Cosmeceuticals

Dermelect® Cosmeceuticals is launching three new treatments utilizing Alpine rose stem cell technology: Resurface Stem Cell Reconstructing Serum, Resilient Stem Cell Regenerating Treatment, and Resurgent Stem Cell Firming. The three treatments can be used alone or in a three-step system. 888-693-3763 or www.dermelect.com

DNA EGF Renewal™

DNA Scar Therapy is a new intensive treatment to minimize the appearance of scarring. Beyond simple silicone gels, this light, potent serum restores skin's smoothness and tone with powerful DNA repair enzymes, silicone, sunflower seed oil, and beta glucan. It heals scarring from invasive plastic surgery, accidents, or other skin treatments by instantly moisturizing and revitalizing the area. 877-411-5476 or www.dnaegfrenewal.com
