Meet Your New Lunch Box

From the makers of the Cuppow (the lid that converts a jar into a to-go cup) comes the BNTO, an insert that transforms a wide-mouth mason jar into a bento box, keeping your salad and dressing, yogurt and granola, or veggies and dip from mingling until you're ready. We love this simple and elegant solution to the everyday dilemma of how to tote around breakfast, lunch, or snacks in an eco-friendly container that doesn't leak.
