PAPER TRAIL

Paper, Gowns & Glory specializes in intricate cake toppers and bridal sculptures that are amazingly made of paper. Artist Aimee Empey will custom tailor your sophisticated sculpture based on photographs of you, your groom, your dress – even your flowers can be translated through acid-free paper and archival glue. The details are amazing and shadow boxes are available to keep your keepsake safe for years to come. *Pricing varies by design and detail; papergownsandglory.com, 617.669.9647.*

NATURAL BEAUTY

If there was ever a day to look your absolute best, it's your wedding day – but sensitive skin can react badly to the topicals typically associated with revitalizing complexions. **Clairevoyant Beauty** combines fresh botanicals with biodynamic anti-aging ingredients to create organic treatments that refresh and revive without chemicals, preservatives, or synthetic fragrances. Rose hydrates, citrus regenerates, and sea minerals detoxify in an array of delicious formulas. Every product works well with any skin type and can be used together in any combination. *Pricing starts at \$24.99; clairevoyantbeauty.com.*

TAKES THE CAKE

Judith Leiber celebrates weddings with this limited-edition minaudière of everyone's favorite bridal sweet. "Blue Bows" is a triple-tiered confection paved with crystals and embellished with enamel accents. One of three exclusive cake designs, this exquisite accessory is lined in silky blue satin and features a snap enclosure and 19" chain. *\$6,995; call 212.223.2999 to reserve.*

HOT ON YOUR HEELS

Beautiful shoes are required on your wedding day, but there's certainly no reason to suffer for fashion. Foot Petals has released their **Stiletto Stylist Kit for Brides**, a collection devoted to relieving the pain of wedding shoes. Insoles, heel cushions, strap strips, and shock absorbers conspire to transform the most tortuous footwear. Individual components are also sold separately, but when it comes to your toes, consider the whole anthology. *\$44.95; advantagebridal.com.*
